Pacific Nursery

3041 BAKER STREET, bet. Lombard and Chestnut  
SAN FRANCISCO

*The Presidio and Ferry Cable Cars run past the Nursery.*

NURSERY AT MILBRAE, SAN MATEO COUNTY, CAL.

---

I beg to offer my new trade-list for 1901, thanking you for the generous patronage extended to me for the past thirty-one years, and soliciting a continuance of the same. My stock at the present date is looking exceptionally well, and is being mostly grown on my Nursery at Milbrae. My office and sale-yard will continue at my place on Baker street, San Francisco, and all orders will be filled from this place.

HOW TO REACH MY NURSERY.

My Green-houses and Office are situated on Baker street, between Lombard and Chestnut, and are easily reached by the Presidio and Ferries cable cars from the corner of Montgomery Avenue and Washington street; also the California, Hyde and O'Farrell street cable cars transfer to the Presidio and Ferries cable cars at the corner of Union and Hyde streets, which run within one block of my Nurseries on Baker street, where all sales are made, as I am not selling any plants at my Nursery at Milbrae, San Mateo County.

## TO CORRESPONDENTS.

Correspondents will greatly oblige by observing as far as possible the following points in making out their orders.

All orders should be legibly written out on a separate sheet, and not mixed up with the body of the letter, thereby saving me a great deal of trouble, and tending to prevent mistakes.

Articles furnished at the prices named only when numbers specified are taken. Six will be furnished at the dozen rate; fifty at the hundred rate, and five hundred at the thousand rate.

Where particular varieties are ordered, and particular ages and sizes of trees, kind of stock, etc., it should be stated whether, and to what extent, substitution will be allowed in case the order cannot be filled to the letter. Where no instructions in this respect accompany the order, I shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of varieties is left *entirely* to me, I shall endeavor to send only such sorts as are acknowledged to give general satisfaction.

To avoid errors, state by which route they wish the plants to be forwarded; otherwise I will send them as I deem best for the purchaser.

All trees and plants are carefully and securely packed in the best manner, for which a small charge is made sufficient to cover cost of material used. No charge will be made for the delivery of packages to the railroad and steamer or express office. Also, all plants will be delivered free of charge in the City of San Francisco.

All plants which are grown in pots, when ordered to be shipped to a distance, will be removed from the pots and securely balled in moss. If customers desire to have them shipped in pots, I must not be held responsible for the breaking of pots while in transit.

**All articles are at the risk of the purchaser after being shipped.** I must not be held responsible for any loss or delay that may occur through the negligence of the forwarder.

Orders from unknown correspondents *must* be accompanied by the cash or satisfactory reference. Orders to be sent C. O. D. *must* be accompanied by at least one-half the amount in cash; otherwise they will receive no attention.

My customers are requested to notify me immediately of any error that may be committed in filling their order, so that the same may be rectified, as I desire to give satisfactory dealing to all who favor me with their orders.

## CAMELLIAS.

Camellias are acknowledged to be the finest winter-flowering shrub in cultivation. They will grow freely in any fairly good garden soil, and require but little attention after the first year after planting. They must not be allowed to become too dry until they are well established. The plants I offer are perfectly healthy, well-rooted, and three or four years from the graft. They are raised in my own nursery in the open air.

Plants 2 feet high, with flower buds, 60 cents each; \$55.00 per hundred. Plants without flower buds, 50 cents each; \$45.00 per hundred. Larger plants, with flower buds from 75 cents upwards.

## NEW CLIMBING ROSES.

The price for new roses, both climbing and bush, for strong one-year old (budded) plants, is 35 cents each, except where otherwise marked.

**Barton Job.** The foliage is large and leathery; the flowers are very large and resemble a saucer in shape and are semi-double. The color is deepest, richest velvety crimson.

**Climbing Kaiserin (Mrs. Robert Peary).** Strong, rapid climber, without a weak spot, and throwing up shoots 10 to 15 feet high in a single season. The flowers are grand, of a pure white color, and of great substance, and are produced on long, stiff stems. 50 cents each.

**Climbing Malmaison.** This is identical with the old Malmaison, except that it is a vigorous climber. Its color is pale flesh; very large and full.

**Climbing Meteor.** The brightest colored of all climbing roses. Its flowers are much larger than Meteor and are richer in color.

**Climbing Paul Neyron (Mad. Wagram).** A grand new rose. Paul Neyron has

always been known as the largest rose extant. This climber excels any rose, with its bright, fresh, pink color.

**Climbing Wooton.** This is a sport of that famous rose Sou. de Wooton, and is identical with it, except that it is a strong climber. The flowers are large, full and regular, with thick leathery petals, and are bright magenta red, passing to violet crimson. 50 cents each.

**Empress of China (The Apple-blossom Rose).** It is a strong grower and free bloomer. Flowers of good size; long pointed buds; soft red, turning lighter as it opens.

**Gruss au Teplitz.** It is a perfect sheet of richest crimson scarlet all summer. The nearest we can describe it is that it is the richest velvety crimson shaded with brightest scarlet.

## NEW BUSH ROSES.

**Antoine Revoire.** A handsome new rose of vigorous habit and growth, with large, full Camellia-shaped flowers; color, rosy flesh on a yellow ground, and shaded with a border of carmine. Flower five inches in diameter.

**Champion of the World.** Color, fine lovely shell pink; exquisitely fragrant; a constant bloomer, and strong, healthy grower.

**Clara Watson.** The flowers are very graceful, resembling Bridesmaid in form. For freedom of bloom the variety is especially valuable. Color, salmon pink; very difficult to describe. 50 cents.

**Helen Cambier.** The growth is free and vigorous, and very free blooming. Flower of splendid substance, and delightful shade of rich, coppery yellow. The buds

are full and firm, lasting a long time when cut.

**Sou. de Pres. Carnot.** This is a superb new rose in every way. The flowers are large, full and double; exquisitely shaped, with heavy, thick, shell-like petals; color, a new, delicate, rosy blush, shaded deeper to the center of the flower. Long pointed buds. 50 cents each.

**Sylph.** Flowers ivory white, tinted with peach color; a very beautiful blending of colors. The growth is vigorous and the flowers are produced in great abundance.

**White Mamam Cochet.** In bloom all the time. White Mamam Cochet is easily queen of all white roses. The buds are beautifully formed, with large petals of great substance; vigorous, healthy grower.
